Build your unique finance solution using these four flexible finance blocks

Your Unique Finance Formula

Using the Convertibill® Finance Formula, each of the four Convertibill® Finance products can be used individually, or can be combined with any of the other finance products.

These Finance products use the unique Convertibill® **purchasing model** that can be used to compliment, or to replace, 'old-style' traditional lending models, e.g. overdrafts, terms loans or invoice discounting.

As the business owner, advisor or accountant, you are assigned a dedicated Convertibill® Branch Manager or Finance Specialist.

Working with your Convertibill® Branch Manager, or Specialist, you build the unique finance solution you need to fund, and grow, your business.

Testimonial

“You’ve allowed our expansion to accelerate. We’ve doubled in size in 18 months”

As pioneers of this new system of financing, Convertibill® uses an easy to understand Finance Formula.

Unlike the traditional lending models and their industry wide ‘Slow No’, Convertibill® uses a **purchasing model**, a simple set of documents and a specific processing method.
